Water conditions:

the water was shallow about 2ft deep, very clear, and the the temperature was around 2 degrees celsius as you can see from the picture the surface is partly frozen

Weather:

it was cold and calm

Baits used:

i used the remaining part of my sample of B treated pellets and fished maggot over the top

Feeding:

i fed them througha small kinder type pot on the end of my pole.

Comments:

The water was frozen and took us around 1/2 hour to break the ice
