

Name: Andrew Wiffen

Background: I have been fishing since I was 8 years old. I grew up fishing the River Cherwell, Oxford Canal and the River Thames. For the last 14 years I have been fishing opens and match groups on commercial venues only. My favourite method of fishing has to be pellet fishing especially in the winter when you have to work hard for bites on the pole.

My biggest carp was 19 lb and a half on the pole.

My biggest match weight is 192lb.

My biggest angling achievement so far is reaching the Garblino match fishing magazine club angler of the year 2009 which I came 5th overall.
